Because the first world countries teach history all wrong on purpose, what happens is their citizens think they've done their "research" when they haven't. This means history will be lost almost worldwide. Important

I got upset at my father when I did not understand that I would encounter this stuff in life anyways.

Without social media, this "globalization" of the people on the platforms, their efforts would do nearly nothing to do so. Important

Keep things simple, most in the public are able to have simple conversations. When you keep things simple with people, they like you gradually more. When you talk about deep subjects with them later, they've opened up to you. Important

Many Americans only want to be your friend if there is something to gain for them. They will leave you if they feel you don't offer anything to them. They have to believe you are worthy of their high status they set. Once they feel you are this "high status" they set, they will leave you later anyways as they will tell you "people come and go." Only if it benefits them, they will come over, they will go to you. Important

In medical, they expect you to do all the work. That means you will have to learn each part of it, and you have to make phone call after phone call to make payments or set up benefits. Sometimes, the workers will mess up the phone call. America complicates it way more than it has to be. They don't have any businesses to do the work for you for medical at a fee where the business will give you the money back if they cannot. Medical needs to be called medical, not service.

Each year, more of the polytheist occultist want to be part of the worldly life, they give up on what they used to do.

One thing I learned is that just because someone has studied their political beliefs for years, they can still be frauds.

If almost all centers in America are beyond corrupted, it will show our Lord cannot possibly be on America's side.

Christians are posting videos of how Churches are empty in their country and Mosques are full. What they don't understand is that it is generational so in the future, Churches may be full, and Mosques may be empty.

To this day, the biggest empire of the world is the Ummah. The public will insist there will be an empire large than it, I didn't say that.

Who would have predicted that a first world country could become the most amount of work to run?

It is because “everyone” (65%) owns a house in America, that’s why most Americans want a house. Houses became something they never were. What will happen is that to get a house in America, the costs will go up each year. This is an example of how the public will have to compete more and more for the same things. Important

Bashar Al Assad tries to give this belief to the Syrian people that in the future, Syria and the Saudi leaders will work together. The last thing Bashar wants is for the Syrian people to think most of the world goes against them since the Saudi government exports their wahhabism globally. We know the wahhabs want nothing more than to destroy Syria.

It is unfortunate the internet wasn’t invented 200 years ago. We Muslims would have had such successful advocates for Islam who would have gone through so much schooling to teach others about Islam through the internet. Our goal was always to bring non-Muslims to the light, not hinder the non-Muslims from the light. Important

You can tell an employer “I wouldn’t work for a penny less” at a job interview, knowing the pay is bad.

I am shocked it doesn’t spoil more youth having a smart phone. They have a TV they can take around anywhere. Do we forget TV privileges growing up?

All the elites will do is inflate egos more and more through their influencers like Andrew Tate.

Communism may not be a good system in today’s world, there is so much to purchase on Amazon.

If people are too rude in America, good ethics will fail, this means good ethics will not be possible in America. Important

With cars costing over 40% more, that means Americans will buy more expensive cars on credit. Because Americans will buy more cars on higher credit, this will lead to more debt meaning they will use more debt to get what they want. The issue at large is that when Americans buy these cars on credit, they will be more prideful meaning more difficult to work with.

What would happen is, I would tell them something about what America does, the public denies it in their mind thinking America doesn’t seriously have laws like that in place. Important

What the elites can do is connect someone they target to put in prison and say they work for Iran when there is no connections. The saudi citizens go along with it because the protestor is a Shiite.

People in Massachusetts complain, but they want it that way to be able to complain.

There is not one sound for everything. For instance, when someone trips and falls, the noise is not the same as a doorbell. Sounds also have different volume levels which alert others such as a car horn. Important

If someone asks about your beliefs, you can say “I will talk about it later.”

To those who want to globalize the earth and say, “I don’t want to disclose my address”, that would be what you are doing. If there is globalization, there would be no need for a countries flag anymore.

When you meet someone who will only talk about what they want to talk about, they will miss your presence more the more conversations you have with them, about what they want to talk about.

Apparently, I am an “aspiring Muslim” of seven years.

In the future, the public will find ways to take more and more. Their friends will agree, thinking these are good “values” of ways to live a better life, not realizing what will happen when they take more.

In Massachusetts, they will be fair on the phone, in person they are rude.

Because the public thinks no religion can be proven, the public thinks you explain religion to them because you want to give them status. Every time you explain religion to someone, the other person will think you are talking about yourself in America.

It is now called “the west” because when it was called “white colonials” as what we were taught in the public schools, their countries such as America and Britain couldn’t be exported through this social media.

Even if an American makes 40k a year, they will tell you the economy is “good.”

There are those who think their “third” temple will come anyways without warfare or distorting the world and they will give up on trying to distort the world instead they will want to be a part of their countries. I believe those numbers will go up in the future. Important

How lost one would have to be to believe their ideology works where it doesn’t work for them. They cannot realize their ideology is corrupting America where the country is failing because of people like them. I find this concerning. Important

The percent of the Bible we have today that I believe is around 48%. No lower than 38%. Important

Religion will be used solely for moral superiority in the future. The public will try to become people they are not thinking it will make them superior over others. They will claim their religion is better by claiming verses they try to abide by to believe such. Important

Historically, the few who converted to Islam did because they had lived at a Muslim land for many years to work in it where they wanted to be a Muslim because of the culture. Or, they had married a Muslim lady and had converted to Islam. Important

The stories in scripture were to get us believers to relate to the Prophets.

I don't believe the Palestinians will be able to end "hamas" (salafi saudi owned) from the zionists. "Hamas" is there to end support for Palestine worldwide. I don't believe hamas will be outside of the Gaza. I believe "hamas" is trying to have the next generation join hamas since they are viewed as the leaders of the Gaza. What happened was the wahhabs "muslim brotherhood" they had for almost 100 years failed to have revolutions in countries such as Egypt, Lebanon, and Syria. That didn't work for the wahhabs. The wahhabs now want their group "hamas" that is another "muslim brotherhood" group to join them through social media in countries in much of the world. This is done to have more wars in the future in the West Bank and in Southern Lebanon. The zionists don't want the Gaza Strip. The land they want is the West Bank. It isn't a war since the zionists don't want the land that they already had. The people of Gaza couldn't fight to begin with. The population in Gaza was 350,000 in 1967. The population in Gaza in 2024 now is 2.2 million. The zionists may not know what they are doing with the people of Gaza where the zionists did not plan what they would do with a war in Gaza. The zionists don't know how to run the Gaza during a war where the displaced Palestinians would go. Important

As we have seen with the hamas (salafi saudi owned)- zionist war, the activists who type hate filled comments on their social media to the Palestinians during the war, what those activists did went to nothing. Important

Jimmy Dore an American left commentator said President Biden wanted another war to fund the American military complex after the Afghanistan War ended so America wanted the Ukraine War. I don't believe that at all. With the Ukraine War, America gave Ukraine 120 billion for nothing in return. At times, this claim the left makes is true throughout world history. However, the left put this accusation out every time. The left used to claim that wars were fought by America for "oil." I believe the left in America is so absurd, an example where they want to believe anything. Important

The public will only consider being a Muslim if will benefit their lives in some way, the public overlooks that our Lord has laws on the earth by only considering themselves. Important

Most of the wars Prophet Muhammad fought were with the polytheists of Arabia. Much of the Quran is about addressing the Jews, twice as much as it is addressing the polytheists. Much of the Quran addresses the Christians as well. Prophet Muhammad in the Quran was addressing the Jews and Christians in what the Jews and Christians had wrong with faith. Important

Hamas (salafi, saudi owned) put in their charter the hadith Sahih Muslim 2922 that the Last Hour will not come until the Muslims fight the Jews and the Jews hide behind the Gharqad Tree and the Gharqad Tree will not say where the Jews are. The public will not understand that Prophet Muhammad warned of End Times through it, it is an Islamic hadith, not their own exclusive charter. The public ignores how the hadith is eschatology. We Muslims have no clue if the hadith applies to hamas at all, I personally doubt it. The hadith is to inform us Muslims. Important

What the public overlooks is that had the zionists not sent in missiles to the Gaza Strip across 30 plus years, this war would have never occurred.

When a person doesn't allow the other person to finish what they are saying and the person who was interrupted was upset about it, that is a law of life. Important

Google only give websites, images, and videos of "muslims" of today. This is by design. Google doesn't want Islamic history in their search engine where they own a monopoly of what is searched on their website. This is deplorable of the elites. Important

The talmudists, freemasons, and catholics want their "third temple" since they have started or since they have been run by the elites. They tell their followers that they could want something else such as a skyscraper that somehow unites their beliefs. This would mean they don't know what they are doing, they are all over the place. They have no eschatological beliefs. Important

Ali Khamenei most likely had said in 25 years the zionist state will be no more because Iran believes the wahhab influence and the world will want the zionist state protested out of existence. This means Iran knew a future war would cause the public to go against the zionists. The Iranian government played it as if they would invade the zionist state. By design, the Iranian government had no intent at all to invade nor have fund Palestinian protests since Iran cares about being the country with the highest standard of living. Ben Netanyahu kept saying Iran would

“genocide” the zionists. This means the sauds will take over Palestine with their wahhabism over time. Important

The countries citizens of the Middle East are unifying. That is one take from what is coming from the hamas-zionist war.

If you are interested in sharing on the internet what is going on in the world, all we can share is video footage of what is happening. We can respond to politicians and social media influencers posts; however we cannot get upset by what they post because we don’t know if the politicians or social media influencers are commenting what they say in efforts to upset us where they don’t believe what they say. In some cases, it can be obvious that they are saying what is on their mind. For the rest, we simply do not know. We should only respond to so many commentators being professional with what they say. We need to stick mostly to reposting videos. Important

It is clear to me that both sides of the Palestinians and the zionists do not want war knowing these wars go nowhere. No one gains or loses land from it nor do the zionists get anything from sending missile strikes to the Gaza Strip and the West Bank. We know the zionists did not want the 2023 war with hamas. 150 zionist hostages were taken, over 40k Palestinian civilians were executed. Does that make sense? Important

In the future, employees won’t be able to work with each other. The politicians may be able to give higher salaries to employees, but it will do nothing. Important

The elites and their minions seem to overlook that they did not write the Talmuds. They can inherit the “third” temple eschatology belief from the Rabbis who wrote the Talmuds. However, the elites and their minions act as if they own the third temple having never met the Rabbi’s. The elites and their minions do not know if the Rabbi’s decide the third temple. For the small portion of elites and their minions whose ancestors who have never met the Rabbi’s continued their polytheist occultist beliefs. Also, the elites and their minions know the same amount about the Israelites that the public knows about the Israelites. Important

In Paradise, the Holy Bible which is infallible will be along with the Quran we have that is infallible. There will not be a Talmud as part of scripture. This is more reason to believe the talmudists have their beliefs wrong. Important

One thing that Christians today get wrong is that they act as if Christians were separated from their countries and kingdoms in Europe. This is false. Christians today are rewriting history to try to separate themselves from the world. Important

Arabia was made up mostly of monotheists during the 7th century, it shows that Prophet Muhammad was coming because Prophet Muhammad was their leader who would lead them to rule much of the earth. Scripture foretells of a leader of monotheists that they would be rallied behind. All the rock carvings of false deities are before the 4th century. 4th and 5th century Arabia was made up mostly of monotheism, by 6th century Arabia it was made up of monotheism. Important

Hamas is not based on the Biblical Hebrew word chamas which means "violence" found in Isaiah 60:18 that the zionists believe fulfill a "prophecy" for them. The zionist use hamas they created to deceive the public as well to try to make them seem like heroes. The word hamas means "zeal, strength, and bravery" in Arabic.

There was no "secret knowledge" in Babylon during Babylonian Capitivity for the Muslims, this "secret knowledge" is a myth. Scripture that was written during the time of Prophet Sulaiman's Temple was lost during Babylonian Captivity, there was no "secret knowledge."

The oldest "your mom" joke is found from the Babylonians on a tablet of theirs. That is cool.

I believe "radicalization" is made up; no such concept exists. Important

The fact that religious material is still there from generation to generation helps the case that religion is correct. Add to the fact that the prayer beads, the prayer rugs, and other material are the same from generation to generation.

Most Americans can't understand religion, or they do not care at all. Historically, Americans understood the Bible. Will a generation that understands the Bible or care about religion come along in America? How did this happen in America?

Even with "freedom of religion", the Americans will ruin religion anyways. Either Americans can't understand Abrahamic religions or do not care at all about their religious beliefs.

Christians tell us that their false god died on a cross and rose again. In Islam, the prayer times are written out. I know which religion is far more believable to me. Important

You can join the democratic party in America to try to make sense of it believing that in the future, it will be fixed. This is funny.

The first Roman Emperor to convert to Christianity was Phillip the Arab, not Constantine.

If you ever want to get under someone's skin, tell them they are not on top of their job giving them examples.

The Muslims during Ancient Israel's time were henotheistic because they did not know if there were multiple gods. They only knew the Old Testament which spoke of our Lord. The Old Testament they had was not infallible. When the Quran was revealed, the Muslims knew there is one God because the Quran which is infallible contained verses showing there is one God. Important

All the hamas-zionist war has done is made each group and each religion surer of what they believe to a good amount.

The Iranians believe that if they work with the wahhab leaders, then it will bring stability in the region. What will happen is the opposite where the wahhabs will have influence and distort the Islamic faith. Important

It is very difficult to convert to Judaism. It is very easy to convert to Islam.

If you say "hello" to more people, others recognize it. You are viewed as more of a people's person.

Much of America in 2023 only go to religion if it gives them status and fame on social media.

You can use he/him pronouns in the workplace to confuse the workers into thinking you are a member of the left.

If Jesus was Jewish, that would mean Christians false god is Jewish. Only 15 to 20 million claim to be of Jewish heritage in the world today.

I believe the voting age should be the age of reason of 25.

In the false map of Ancient Israel found on Google images, whoever made it put the "Arabu tribes" in the Sinai Peninsula. Important

If the Israelites were in Palestine with Ancient Israel, they would have been well known to the region since Palestine is a trade route to Egypt and the Neo Assyrian Empire. Since they were in Arabia, they were not well known to the region.

Every Prophet was handsome.

Selling halal business wise is working well in today's world with the ethics found in halal business. This also means Islam will attract a new crowd. This is a big deal. Important

The infallible Bible in Paradise could be formatted far differently than the Bible we have today.

The public believes that Prophet Moses traveled to Midian through the Sinai Peninsula from Egypt. He went back to Egypt after decades. He later crossed through the Sinai Peninsula leading the Israelites after being chased by the Egyptians to get to Palestine. Something to consider.

The American Dream from the 1960's is the best thing to ever happen in America. In 2024, it is what Americans and those who come to America want out of America.

Because today's first world countries are destroying religion in their countries, they are interpreting scripture with an interpretation that doesn't function, their countries social media influencers do a horrible job, this means their population will not develop properly. Their countries populations won't grow up, they will be stuck in their early 20's their whole life, they will destroy their countries from this. Important

When someone asks about your beliefs, you can respond with "where do you hear this from?" Important

Three out of four converts to Islam are women. I was one out of the four.

The Madagascar Plan came about after France fell during WWII to Germany. If the talmudists were exterminated, it was never the Germans intent to do so since the Germans wanted the talmudists to go live in Madagascar.

M.S. St. Louis was a ship of 900 Khazars that wanted to go to America from Germany during the beginning of WWII. When the ship reached Cuba, the Khazars on the ship were denied entry from America.

There are over 45,000 Christian denominations. That's an awful lot.

You will hear the word "empower" used more frequently in the future.

Alexander the Great conquered Palestine and it was named Palestine before it was called Second Israel. That means Palestine came before Second Israel. We now know Ancient Israel was in Arabia. Important

Jews will not convert to Islam because Prophet Muhammad descends from Prophet Ishmael. Prophet Muhammad does not descend from Prophet Jacob who created Bani Israel. Prophet Muhammad would know far more about Bani Israel than Jews historically since he is a Prophet who spoke to the Angel Gabriel. The Angel Gabriel would know more about Bani Israel than Jews who are descendants of it. Important

It would take over four and a half days to walk from the Gaza Strip to Cario Egypt. The People of Gaza would have to be directed walking to Gaza. Anyone would, being that they would have to cross the Sinai Peninsula. 2

million Gazans of all ages would have to walk through the Sinai. This sounds difficult. Important

The lost books of the Old Testament contain Prophet Muhammad's name in them. Important

The internet believes "Muhammad was a Christian." No, he would be very close to a Jew if he was of a follower of a different religion.

In America, there are many that buy on credit to try to raise their status higher. These Americans will use this system year after year when their status is still low while they pile up on debt. Because of someone in office in America back in the 2000's thought of buying assets that depreciate on credit, it is now misused in a way it wasn't intended for, but it is still around today. This is absurd. Important

Scripture costs no more than 20 dollars between both the Bible we have today and the Quran. Important

Since being rich or famous is advertised much more, the public becomes upset by this because the public is not rich or famous.

What happens so often is those who make money easily blow through it most of it quickly.

Americans wouldn't want Islam, most of them don't go to Church on Sunday. I don't believe Americans would have a different Abrahamic religion when they are not going to church. If they went to Church on Sunday, would they then convert? It is a good question to ask. Important

2 billion Christians will never hear the love of Prophet Jesus found in Islam.

The public thinks you are uneducated if you are poor. I am not sure why.

Iran is going to do their part in distorting Islam because Iran works with the Sauds. Iran is not supposed to be working with the Sauds. Iran will start mixing ideas that the sauds have as some sort of "team" that the next generation will have to make sense of. Important

Why aren't Islamic leaders in countries such as Syria, Iraq, and Iran speaking out against Andrew Tate claiming to be a Muslim?

To avoid many conversations that may become arguments, send text messages instead of calling. It makes conversations that are arguments far more coherent.

Do you notice that every state in America has been the same for the last 13 years? What you see set up today will be the same for he next 80 years at least. Every election cycle will still be a big deal.

The world will end in the Middle East. Our Lord is informing the Middle East through Islamic countries through the Islamic faith.

The first story of Prophet Adam involves the Angels prostrating to him. This story is not in the Book of Genesis. The cherub Angels are first mentioned in Genesis 3:24. Angels that are not cherub are mentioned first with Hagar in Genesis 16. This is more reason to believe Islam is correct. Important

In the lost Bible, there are several references of Angels Gabriel and Michael.

Because the talmudists own the land of Palestine, the land of Lebanon, and the land of Jordan, we cannot excavate the land to show the events in the Old Testament did not happen there and that Prophet Isa did not live there. We can excavate to show the Muslims lived in captivity in Babylon since most of the land in Babylonian captivity is in Iraq, only a small portion of the land in Babylonian Captivity is in Kuwait. We cannot excavate in Northern Yemen to show where the Old Testament took place because Yemen is closed from the war in Yemen. We may or may not be able to excavate in Egypt. This will help show that no Israelite story happened in Egypt. Excavating in Egypt won't show where the Israelites were historically. Important

The false miracles and the accounts that did not occur in the false gospel are made to seem far more believable to the public because YouTube and specifically TikTok promote Christianity so much having so many Christian commentators talk about the false gospel and how it has gotten them the fanbase they wanted. When a Muslim says, "where did Jesus say I am god, worship me?" It makes the false miracles and accounts seem even more believable that they happened. Muslims in this instance are adding to the false gospel being believable. Important

The public listens to who has wealth and which famous or political person will give them wealth. This means the public only listens to those who have wealth, wealth doesn't translate to knowledge. Because the elites and their pawns have the most share of the wealth of the earth, the public will do what they tell them thinking it will make them rich. It is no surprise that Donald Trump won the American presidential election in recent years because of his wealth since the public thinks they will be rich because they vote for him. This is the opposite of the candidates who were middle class for most of their lives. Barack Obama is an example of that and that was only 13 years ago. Voting for the rich candidates. This is noteworthy because Bashar Al- Assad gets trouble from part of the Syrian public for being so rich, he shouldn't. Important

You will see much of the world much more politically involved in the next 20 or so years. Part of the reason being social media short videos of public discussions. Important

America would be better served without colleges. If a study of this could be conducted, it would show in most instances, colleges did not improve workers' ability to work in the workplace. All American colleges are doing is creating more activism with more activists. Here is no scenario where that is beneficial for a country. Much of the public go to the most expensive colleges getting the highest grades. Those who go to these colleges cannot do basic desk work where it is too complicated for them. I have no clue how that is possible.

The best advice I can give you is to wake up every day believing you deserve better.

I think the main reason why America will fail is because of college. Not because ideology is pushed at the college campuses at America but because it convinces most who go in America that they know more than the rest of us.

I don't believe countries such as the Saudi country, Kuwait, and Bahrain would last where there are stricter laws for those at the bottom will last. For those at the top, the strict laws don't apply to them. For some reason, not many agree with me on this. Important

People in America, "mine, mine, mine." Then they tell you to pay taxes to fund their towns, that won't last.

An early Christian sect known as the Ebionites believed Christ was the heavenly figure that descended up Jesus during his baptism but departed from him at his crucifixion. They also believed they could become Christ themselves if they kept the Law of Moses. This seems to be far from what has been taught at the Church historically.

If someone is taking issue with something you do or say, you can respond with "we can talk more about it later." They will drop it most of the time.

America wants the highest status they can possibly get. America cannot get this for their country. What is more noteworthy is that they will keep competing for a higher status that is far from the possibility America can offer. It will spoil them. For those who wan to get their status higher than it is at, it will overwhelm them. Important

Today's first world countries talk about WWIII, their countries aren't run well. What would WWIII look like for today's first world countries?

I still have no clue how in 10 or 15 years the world became completely different from what it was in the last 6,000 years.

There is a belief of “no amount of evidence would prove God’s real.” I am not of that belief.

Only Islam has proven God’s existence through the infallible Quran. No other religion has a religious text that is infallible. Therefore, they cannot prove their false god exists.

It has become obvious that many of the elites and their pawns are pushing for a one world religion. They no longer push for a new world order as they did leading up to the 2,000’s.

In Christianity, many of the religious laws were written out by Paul. In Islam, the Final Prophet Muhammad delivered religious law. This is more reason to believe Islam is correct.

Since the Dead Sea Scrolls were discovered, we cannot claim that Christians used a Bible they wrote to match prophecies of their false gospel. There may have been prophecies written in since the Dead Sea Scrolls were created from the 3rd century B.C.E. to the 1st century. The Dead Sea Scrolls are in Biblical Hebrew, not in Rabbinical Hebrew meaning it is not the original Bible. The Dead Sea Scrolls do not confirm their false gospel as scripture. What I have written cannot be denied by a Christian.

Paintings of Prophet Muhammad were very common until the 1,700’s. Prophet Muhammad’s face wasn’t used to avoid parodies by artists.

Historically, Abrahamic religions have been known as basic. Abrahamic religions have become something far different in 2024.

Everyone starts a voter of the left until they start paying bills. This has been this way for many years.

The people of Yemen have few supplies to live off, they still care for Palestine going on the streets of Yemen to rally.

Ask someone in the public if there any projects they are working on to start a conversation.

What value is added to a country from Elon Musk making his expensive electric cars? When I explain to someone that he should be worth ten million dollars at most, a person who is critical of what I am saying will call me a “socialist”. A billionaire like Mark Zuckerberg has done nothing to improve the quality of life for those who support his work such as his social media website Facebook that has been around for 16 years, these are a few instances of billionaire who do not add much value to a country, in Mark’s

case, he has added no money to a country. To go further, those who produce necessities such as electricity, iron, homes should be worth hundreds of millions. Important

The Romans did breads and circuses when their empire was collapsing. If America is collapsing, the country kept seeking help during its collapse.

Apps such as Udemy should be phasing out colleges where those who buy the classes on it get a certificate upon completion. Employers can decide the courses they want their applicants to take through apps like Udemy. My question is, when?

A gallon of orange juice costs around $7.50 while oranges are in season in America. Fast food which is a part of America is increasing yearly. At what point does America become a second world country?

I can't put a percentage on this, but most Muslims care nothing about the Bible with exception to a few verses in Psalms to post on their social media. Though they may read the Bible, the majority only do this to learn the Bible and for the reason to debate with Christians in a friendly manner if ever brought up in a public setting to show that Muhammad is the Prophet of Allah.

The entire Old Testament we have today is talking about God. Christians cite single verses such as Isaiah 9:6 to claim that the Old Testament is talking about Jesus being "god". Important

Most Bible stories are about the Prophets. I am not sure why Prophet Muhammad is criticized for the hadiths where critics say "islam is the religion of Muhammad." One can say the hadiths are the same as the verses in the Bible we have today.

In a world where much of it is based on "logic", I can see how many in today's world don't care about humanitarian reasoning with the 2023 war in Gaza. It is neglected because it isn't viewed "logically" to support the people of Gaza or the alternative being that the focus is on making the world more "logical" where making mention of the 2023 war in Gaza isn't a priority for the "logical" world.

"Science will answer the big questions"- Richard Dawkins. Richard has been saying that for over 60 years, then 70 years. Important

King Herod built the "Cave of the Patriarchs" in Palestine in 37 B.C.E. the Hasmonean dynasty inherited the Israelite stories and wrote the stories as if they were a part of them. The Hasmonean people would not know the origins of the Israelite stories, we know the Hasmonean people are missing many stories of the Bible including their version they had in 37 B.C.E. The

Hasmonean leaders would have honored people that were outside of the Israelite stories that they thought were Israelites and the Hasmonean leaders wanted to honor those who were not Israelite leaders that they wanted to believe they were Israelites leaders. Important

Part of the reason why I know some or many names are distorted in the false gospel is because the writers felt they were competing with the true Gospel they had a copy from Arabia. The writers wanted to separate their false gospel as much as possible from the true Gospel to “stand out” to explain to the public why they believe their false gospel is the best gospel. Paul explains this in 2 Corinthians 11:4. Also, the writers used Biblical Hebrew and not Rabbinical Hebrew to translate the names of the Bible they had at the time to Greek. Important

The word Muslim meant one who submits to God and accepts Adam as the first Prophet of God. When more Prophets came later in history, Muslim meant one who accepts Noah as a Prophet. Then, Muslim meant one who accepts Isa as a Prophet and the Messiah. Finally, Muslim meant one who accepts Muhammad as the Final Messenger. The word Muslim had always meant the same since the beginning of the earth. Important

My concern would be if Christians started uniting with Muslims to make a religion out of both, the Muslims would start taking writings from the false gospel and claiming them as part of Scripture. For us, we don’t have enough that will speak out against this and show the public that most of the false gospel is not part of Scripture and bares no relevance over the Quran. Important

Abrahamic religions emphasize call to reason. That is how you get rich of famous on the earth to this day. Important

The public assumes you are uneducated because you are poor.

The focus is on Sharia Law for Islamic countries, because Sharia Law is in the law in Islamic countries, that is what is debated, not why Islam is correct.

Biblical scholars will claim the numbers in the Bible are symbolic. My response to this is, what numbers in the Bible are not symbolic? It is pick and choose for these Biblical scholars. Important

My question to people who live in today’s first world countries is if today’s first world countries are not set up correctly, how are today’s first world countries going to run religion in their countries? Religion cannot work inside of the country if the country is failing.

The world today doesn't protest over a "civil" war meaning a war that is fought internally where a government is being overthrown. The world today reacts as much as they possibly can if there is what they perceive to be an invasion. As example, much of the world got involved with the hamas-zionist war in 2023. Important

I am amazed the people of Gaza can unify for a war against the zionists given how difficult it is to live in the Gaza Strip. The people of Gaza will not surrender.

Social security was not designed to be lived off. Social security is now used for that. Many live off social security and more are added yearly to it. This is a sign that the country is headed in the wrong direction.

I believe that some of the books of the Old Testament we have today are not in the infallible Bible in Paradise. The books I believe are not in the infallible Bible in Paradise are the book of Ruth, the book of Obadiah, the book of Habakkuk, and the book of Haggai. Important

The only archeological evidence of a Jewish kingdom was found in Western Arabia in Yemen. The Jewish Yemeni community is the oldest known Jewish community in the world. Important

A few things that help the case that there is a God is that women look separate from us men. We guys can notice a woman's face apart from us guys. This includes voices, women have separate voices from us guys. We can distinguish a male's voice from a female's voice. Important

The stories in Scripture happened because the stories speak of men and women. The stories are from the beginning of time, the stories of Scripture are ageless. Important

The concept of kings, princes, queens, and princesses all started in Arabia, people seem to overlook that.

Iran only engages in conflicts in the Middle East because their country is planning to get the Mahdi thinking the Mahdi will be brought to them. The public won't listen to that because it is eschatology.

As you already know, many religious people in today's world think their religion will run a country thinking their actions do not matter. All that has done has made it worse in countries such as Britain.

In America, the country has to keep giving more to their citizens every generation. America wants to compete to be number on in the world. America doesn't have a set of rules and standards for their country. We will find out in the future.

How can our Lord be a man? The Christians respond with that their false god is God, a man, and the Holy Spirit. Again, how can our Lord be a man? Important

What benefit is a protest if it is comprised of jobless woke socialists?

America has thrown away 165 billion dollars in the war in Ukraine. There is so much that can be discussed about this. The main point I want to bring up is how America has the reputation of getting rich off wars America starts worldwide.

Jews and Christians could claim that the Biblical Hebrew is interpreted incorrectly by others. However, if the Biblical Hebrew is being interpreted incorrectly by others, how can their Old Testament they have today be infallible where there is disagreement over the understanding of verses in the Old Testament we have today?

The first world countries' public won't see that their countries are headed in the wrong direction because their countries keep investing in their countries. Important

I consider the 2023 hamas-zionist war to be a genocide against the people of Gaza. The reason for this is because the people of Gaza cannot leave the Gaza because the Gaza is barricaded. It is terrible.

America has evolved so much where historically up until the 90's, America was about having the best alliances with capitalism. Now, America's focus is not having any allies and prioritizing making sure no group of people are marginalized.

There is more reason to believe that Islam is correct when the Quran is from Prophet Muhammad. The false gospel consists mostly of Jeshu. Prophet Muhammad is speaking of our Lord. Jeshu is not a Prophet.

I am deeply concerned with what the leaders of the elites' countries will do with social media influence. Elites and their pawns who run countries with social media social media influencers is now one of my main concerns, it may even be my number one concern for the future. Important

The terms open minded and the close minded are misused. Someone's beliefs can be exactly the same year to year, they will not be called "close minded" because they vote Democrat. In a country different from America, this could be the opposite where the conservatives are called "open minded", we haven't seen that yet in recent years. Or, the term "open minded" and the term "close minded" cannot apply to someone's beliefs of how they vote.

There is no issue with a country being very politically engaged or being very patriotic.

Given how poor the wahhabs, the catholics, and zionists leaders are, it leads me to believe they will ruin their centers with teaching “logic” far wrong.

When prices go up, the divide in wealth will grow in a country. This means more protesting will happen in today’s first world countries. What is also happening is people are not voting left as much in today’s first world countries because their left leaders had not given them higher paying jobs.

Apostate Aladdin a Youtuber criticized Ridvan Aydemir a Youtuber for his support of the zionists during the 2023 hamas-zionist war. Apostate Aladdin’s criticism was perceived as an attack by Ridvan and David Wood. We know which channel grew from the argument and split they had.

Muslims get insulted for Prophet Muhammad flying to Paradise on a winged horse. In Christianity, there is a story of Jesus ascending to heaven called the transfiguration. Important

History will be decided by whoever got more social media likes as example of the hamas-zionist war in 2023. I don’t recommend this at all.

The rest of the world will not convert to Islam because the world has shown to join a religion if they believe it gives them wealth and status.

The public will compete more for status. This means the emphasis will be on wealth in the future. The focus will be on what religion can do for someone, the Ummah will have no importance in religion.

The public figures that their party is smarter with what they do because the two parties are further apart each year. No. Important

Often, the public will say that the world is constantly evolving, I think this causes them to forget that the earth is the same earth. Important

Now when Palestine is brought up in a discuss, the Gaza will be what is discussed, rarely will the West Bank be mentioned. It was the other way around since the 1,960.

Judaism is a tribal religion; it is not the correct religion because there are billions of people that are part of Abrahamic religions to this day.

Because polygamy is viewed today as having multiple wives instead of having multiple wives instead of having multiple girlfriends as a way to explain as to why to be Muslim over a country that is not religious as a competition between Muslim countries and countries that are not religious,

this hid the reality that there is a law of life that four wives is the limit a man can have. There are other instances of this with religion.

Part of the reason why the world has many problems today is because the world is trying to be “logical”, logic is so complicated that the world has difficulties because those in positions of high rank cannot understand logic beyond a basic understanding, the ones in high rank that understand logic are few and far between. Important

Saint Patrick’s Day is known as a Christian religious holiday festival for drinking. This is not an actual religious holiday since it involves drinking alcohol, it was intended to be for drinking, it is a cultural holiday.

This is my advice; don’t criticize those you meet. Speak highly of someone and tell them why your ideas work well with a response like “this is what I like about you, I believe so and so.” Important

One thing I cannot stand is when someone tries to say my name in a condescending manner and then explain their senseless beliefs afterwards as if to say, “I know more than you.”

What historians do is neglect the fact that Jews fought Muhammad in Arabia to say that Judaism and Christianity are separate from Islam since Muhammad is an Arab. What the historians are doing is neglecting the fact that the Jews who fought Muhammad were Arabian Jews. This means the origins of Judaism may have taken place in Arabia. Since Judaism came before Christianity, it is more reason to believe Islam is correct because the Jews in Arabia during Muhammad’s time can trace their origins to Arabia. This means many Jews in Arabia never left since Judaism first began from a misunderstanding of Islam.

One positive thing about living in 2024 is that there is no such concept as an expensive book. Books are affordable generation to generation.

In 2024, videogames are political. When I was a teen, videogames were not political. I realize there are those who disagree with me on this, it is another thing that has been made political where those who disagree with me will say “it is just videogames.”

Many Christians say that the Bible they go by has errors and missing writings. Jeshu quotes verses from the Old Testament he had at during the time. There could be more writings Jeshu quoted from the Old Testament regarding slavery in the Old Testament he had at the time.

I don’t believe that the people of Gaza are ignored because they are brown. They are ignored because of their status. People worldwide supported Kuwait during the Gulf war in the 90’s. The people of Ukraine are supported

because of their status as well, or because much of the world doesn't agree with Vladmir Putin. Another example is that Syrians are ignored during the war in their country because of their status. Important

Now we known when the zionists lose, they lose miserably. If not for their citizens with the work they do, their countries would collapse. Even after the hamas-zionist war is over, they will still believe their zionist country will be funded by the citizens in their countries. The elites and their pawns will try again and will fail miserably. Important

Mohammed bin Salman believes he is better than his saudi public because someone taught him that much of the public invests so much in their Scripture. What happens is, Christians spar with Muslims, Jews spar with Christians, Muslims spare with hindus, etc. Mohammed bin Salman was taught that the public will fight each other. If Mohammad bin Salman says he is a Muslim, so many Muslims rush to defend him, meanwhile much of the world insults Muslims. Mohammed bin Salman collects the zakat payments as his own since the zakat goes directly to his country, this is on top of Hajj and Umrah pilgrimages. Mohammed bin Salman gets to be the leader, the Muslims who were duped will defend him, he will not defend them nor will he allow for a revolution in his saudi country. Muslims get insulted if they defend his monarchy run country that destroys the revolutions the saudi public has. Important

The problem with the public that claims Islam has a violent interpretation and that Islam has a peaceful interpretation is that the public cites wahhab and salafi groups such as daesh an al qaeda that are funded by the saud's when the public claims there are violent interpretations of Islam. Important

The Jews who support Palestinians having a state want their religion to be understood as supporting all nations of the earth. No, that will not happen, the zionists will run their religion. The younger generation zionists will not stop being zionists.

To get a sense of how much the emphasis on money has expanded, I used to listen to Peter Schiff on his radio show over 10 years ago to better understand conservative beliefs. Peter Schiff had at most 100k subscribers at the time. Peter Schiff years later marketed himself to listeners to tell them he will make them rich if they listen to him. His channel is now at almost 1 million subscribers.

America was supposed to be exported worldwide with capitalism, now the focus is on the saudi country with their wahhab beliefs being exported worldwide. Important

I would think being an activist where they plan protests in a country would be a depressing life whether they are far left or American conservative protestors.

Americans focused so much on protesting, social media, and politics that they had forgotten their own economy which is in decline.

The Khaybar Oasis discovery in 2024 shows that the land was inhabited in 2,000 B.C.E. The wall shows that there were developed cities in Northern Arabia. The wall also shows that Northern Arabia used to be fertile land over 4,000 years ago. This also gives more reason to believe Abraham lived in good land in Arabia. This also gives more reason to believe Mecca was a city in Ancient Arabia.

There will always be people who are smart in countries that will code the robots correctly, so the robots do not retaliate. Also, robots will not get together to unite to destroy humanity, they are robots, not army leaders that are masterminds.

The protests in Cuba started on March 17th, 2024, and ended the next day. The protests were against the Cuban government because of the government's power outages and food shortages. When there is a protest in Cuba, the Cuban leadership shuts down their internet trying to prevent protests in their country. The Cuban leadership lied to their own citizens claiming that the American government is backing the protestors in Cuba. The Cuban leadership has shut down part of their internet in their country after it. I have been vocal against Cuba's socialist regime for years. So many had seen this coming where the Castro's are incapable of running a country where they may be the worst who run a country of all time. There will be more protests in Cuba. Important

The Babylonian leader Hammurabi who wrote the Code of Hammurabi got his beliefs handed down from the Israelite tribes. Some of the beliefs on it may have come from scrolls on papyrus that the Israelites wrote out before the Israelites wrote out before the Israelites compiled the Bible they had at the time. It misleads the public when people explain how the first written Bible the Israelites had was compiled 2,000 years after the Code of Hammurabi.

Many Christians are feeling abused in some way by the singer Lil Nas X who is known to Christianity says he's a Christian now. Lil Nas X can leave Christianity, he can mock Christianity again, and then go back to being Christian. Lil Nas X show why apostasy laws are beneficial and these Christians would feel benefited by apostasy laws.

None of the names of locations in the Bible we have today sound made up. Names of locations in the Bible we have today include Judah, Gaza, Jericho, Sehba, and Cush.

There is such an emphasis on money in today's world. In Christianity, heaven has mansions in it. In Islam, there are mansions in Paradise. There is also gold in Paradise in Islam. This is more reason to believe an Abrahamic religion is correct.

A Sumerian tablet documented the rules that lived in Sumeria, there was a king on the tablet that lived for 43,200 years. We can now confirm that is false. With a story like that, you would wonder how many years the world has been in existence. That is more reason to believe that the Quran is correct, the Quran does not have a story of a king who lived for over 43,200 years.

To get a sense of how badly Barack Obama failed, Obama's fans said he would be the best president in America's history. During Obama's campaign, they said his policies would fix America. Now, his fans feel obligated to defend his presidency to this day against liberals and American conservatives in America. I believe he was the worst president of all time.

Call to reason could be the most popular concept in today's world. The Abrahamic religion's champion call to reason. This is more reason to believe why those in Abrahamic religions are correct with religion. Important

The Giza Pyramids shows evidence of a massive flood. Egypt has not had a significant rainfall since 5,000 B.C.E. Seashells and fossils found on the Pyramids date back over 12,000 years. This is more reason to believe the Pyramids in Egypt were there before Egyptian civilization. The Great Pyramid of Cholula in Mexico has a base that is four times as large as the Pyramid of Giza. Important

Most names are Arabian in the Bible we have today. If someone were to claim the people of the Old Testament were Palestinians, would they then claim the names of the people of the Old Testament that are Arabian are from Midian? That is not believable.

What messed it up for the elites and their pawns is the internet. Now that countries such as their saudi state, Egypt, and the UAE make up around a 60 percent average of internet usage, their citizens are going to speak out against the zionist state when the zionist state starts their wars in the Middle East. Important

The Jews debate that all the Prophets during Ancient Israel always lived in the land which they believe is Palestine. This is misleading, all the Prophets

lived in Arabia. The Jews overlook that the Prophets included before Ancient Israel always lived in Arabia with exception to traveling to other lands occasionally. Islam didn't "take" the Jews "prophets".

Christians who say Prophet Muhammad cannot be a Prophet are saying Scripture cannot be Arabian. The Quran is as Arabian as it gets.

If a Christian claims that Scripture can be Arabian and that Prophet Muhammad does not understand religious beliefs, most Arabian religious beliefs along with writings of Arabia are lost today, to claim that would be a reach.

If Islam were copied from Christianity, how come Christianity started in Palestine over 600 years before Islam where Islam is in Arabia? The Islamic religions origin is from Arabia.

When you approach someone in America, keep in mind that most Americans have a mindset that they are the best product the world has ever seen, most Americans are as proud as they can be. Important

Only 40,000 people converted to Christianity by the year 150. Christians will tell you "It was because of persecution at the time." To what extent there was persecution of Christians in 150, why didn't many convert whether Christians were persecuted at the time or not? Compare Christianity to Islam where Islam spread rapidly within 30 years that had converted nearly the entire Middle East and into Asia and Africa.

In the future, there will be many in the public that will try to find ways around paying the zakat. Or the saud royal family will cancel the payment they collect from their public and their public won't pay the zakat with the 2.5% their public will save from the saud royal family.

The new America wants an environment where all flags are part of America with protests for all countries which means protests for all countries which means protests for both the zionist state and for Palestine. The new America has no direction at all. Important

Ukraine collects the second most financial aid in the world for a war they had started with Russia. That is absurd. Finically aid is not a guarantee. Important

Iran will do their part in distorting Islam because Iran works with the saud's. Iran is not supposed to be working with the saud's. Iran will start mixing ideas that the sauds have as some sort of "team" that the next generation will have to work with. Important

Someone thought the thobe I had was for mediation, you may be able to claim that in the public.

I find it hysterical that Taylor Swift is at football games to cheer on her boyfriend Travis Kelce as if it is some sort of Disney movie.

Hollywood is running out of ideas because Hollywood only had a small amount of talent for the last 20 years.

The reason why Scandinavian countries are rich is because their population is so low. This has nothing to do with “education” or retirement. If this were the 1,960’s, America would be richer than the Scandinavian countries because America’s population was larger. If America had a population that was larger during the 1,960’s, there would be more wealth in America. In 2,024 there isn’t much wealth to be made. Bernie Sanders was using today’s Scandinavian countries as part of his presidential campaign. Important

InspiringPhilosophy a social media influencer who claims to be a Christian made a short of how he does not want his fanbase knowing which denomination he is. Social media influencers should be required to explain what religious denomination they are. Their job is to influence their fans and they want to influence with religion. What are InspiringPhilosophy’s fans citing? That will make it so the public knowns what denomination doesn’t matter in Christianity. Denomination matters for social media influence. InspiringPhilosophy said that denomination doesn’t matter in Christianity. I am not trying to be rude to him, I know what InspiringPhilosophy is attempting. Important

If crime was lower than in the 90’s, how come shoplifting is at an all time high? I don’t believe crime is being reported and it is ignored. It is just shoplifting that is being under reported? Important

Jeshu had 12 false disciples, in Shia Islam there are 12 Shia Imams. Shias copied too much from other religions for their own sect they created.

Many of those who are famous on social media want to promote their religious beliefs on social media make a big effort to insult other religions. It poses the question if they cannot explain to others why they believe in their religion, so they bash other religions. When there is such a high effort from a social media influencer like David Wood, I wonder if that is the case. It serves as a distraction for David Wood where he makes a small effort to explain why he believes Christianity is correct. Previously, I had said that his channel is not Christian, now the question is posed if David Wood even believes Christianity where he makes such an effort to bash a religion that isn’t his own. Unfortunately, other religions where they could be mentioning other religions and are viewed as such. It gets worse, none of this helps

show which religions are false. It pushes the conversation away as a distraction from which religion is correct, others may disagree with me on this.

The war with hamas and the zionists messed up the peace agreement between the zionists and the wahhabs. Bummer. Important

Ukraine's prime minister Volodymyr Zelensky addressed U.S. congress in a t-shirt in 2022. Zelensky will do what he wants.

In the territory being fought over in the Ukraine-Russia war, all the people there speak Russian. The elites, their pawns, and their clowns will all respond with "Putin wants all of Ukraine."

Many Jews of Arabia during Muhammad's time would not accept Muhammad as the Final Messenger because Jews believed there were set Prophets as part of their religion. If a Prophet came, he would not be a part of Judaism because the Prophets such as Moses were already set in Judaism.

George Carlin 2005 had a comedy show in 2005 calling Americans dumb for inventing big shopping malls. In 2024, the saud's are trying to build shopping malls at every corner, their malls are being presented as 24/7.

Flavius Josephus said the last of the giants were in the 13th B.C.E. during Prophet Joshua's time. This is believable. He also said that the giants' voices sounded like a road like the lions. Who knows.

Sumeria started in 4,500 B.C.E., Ancient Egypt started in 3,100 B.C.E. The oldest surviving literature was found at Abu Salabikh in Sumeria in 3,000 B.C.E. called the Instructions of Shuruppak. The location Abu Salabikh in Sumeria is an Arabian city name. The first library was in Sumeria and started in the year 2,600 B.C.E. with cuneiform tablets. The earliest name is Kushim who was an accountant or an administrator in Sumeria 5,000 years ago. Important

If the elites believe in their American public, I have the right to believe that the elites are worried their country is collapsing and now they may believe in their American public since their American public was not worth much dating back to World War 1. Important

The true Gospel is most like the Torah that we have today. The stories in the true Gospel center around tribes in Arabia during Prophet Isa's time in 300 B.C.E. It will be very similar to the Torah. I would think since Prophet Isa was not sent for all mankind. Important

All universities were destroyed in the Gaza during the 2023 war. 80 percent of schools were damaged or destroyed in Gaza as well.

Someone had said Prophet Muhammad didn't know that there were "four gospels" when Prophet Muhammad said there was only one true Gospel. The alternative being that Prophet Muhammad knew there is only one true Gospel.

What could happen in the future is that the public who type a frequent amount of awful things on the internet will start to do bold things in the public given how the scale is so high of horrendous things written on social media. Important

Prophet Muhammad's name is mentioned four times in the Quran. When the public talks about Islam, they say "the prophet of Islam." The Prophet mentioned the most in the Quran is Prophet Moses, in theory, when "the prophet of Islam" is mentioned, Prophet Moses is the one that would be referenced more or equal to Prophet Muhammad. It is something to consider. Important

Dresden was bombed on Ash Wednesday. I am without words.

With the divide between Christians and Muslims increasing, Paul will be liked more by Christians and disliked more by Muslims.

The Quran has chapters called Surahs. The Quran references the Torah, the Psalms, and the Gospel. In the infallible Bible which has the Gospel, there may not be books called books such as the book of Haggai. Instead, they will be called chapters. They may be called chapters in the infallible Bible in Paradise. Important

The writers of the false gospel were writing their own holy book. They were not predicting the Quran would come. Many Muslims today claim that the writers of the false gospel thought the writers believed the Quran would be revealed. This puts Scripture in context because the false gospel has barely any resemblance over the Quran. The Quran is not going to reflect the false gospel. Important

Prophet Yusuf was protected from a well. Prophet Muhammad was protected by a spider. Prophet Isa was allegedly protected from crucifixion. See how Prophet Isa allegedly being crucified stands out? These are stories known from tribes. The crucifixion is much bigger, Muslims will try to say Prophet Isa avoiding a crucifixion is the same scale as the other two Prophets who avoided their enemies. Important

It has become a distraction of a high amount of debates if Prophet Isa said he was a Muslim in the false gospel. The Quran isn't being debated. I

haven’t seen many debates about the Prophets in the Quran except for Prophet Isa being a Muslim and Prophet Muhammad.

I am suggesting this, I don’t know if “hamas” is made up or not. Who is estimating how many civilians hamas has executed? Who is estimating how many soldiers are in hamas? During the 2023 war, the groups in the Gaza that fought the zionists who entered the Gaza are counted to an extent as part of hamas? Hamas existed ten years ago. Hamas may be a small militia ten years later. Here is something that doesn’t make sense, hamas’s political party is 20,000 to 25,000 people. We are told that hamas’s military is 40,000-45,000 soldiers. This means the zionists know where their hostages are and how to get their hostages are and how to get their hostages back where it would not be difficult for the zionist soldiers to do so. The zionists want to believe there is a “hamas” group. The bigger the “hamas” group is, the more they can invade the land of Gaza and more in the public believe the people of Gaza want to invade their zionist country with a large military force led by this strong “hamas” army. Part of what doesn’t add up about hamas having more than 700 or so soldiers is that the people of Gaza are starving. The 80 to 90 percent civilian casualties shows that hamas most likely does not exist.

So much money was wasted that American became a second world country. This will be taken note of in the future when a first world country becomes a second world country. Important

Nobody saw America becoming much more American conservative in recent years. It isn’t surprising.

It helps the case that Islam is correct that Islam has specific names for the previous holy books such as Tawrat for the Torah, Zabur for the Psalms, and the Injil for the Gospel. Prophet Muhammad knows the specific names of what the name of the books of previous Scriptures are. Torah means to teach; the Quran means to recite.

The 2023 war in Gaza has shown these are the worst elected officials in countries such as America, the U.K., the saudi country, and the zionist country. The zionists thought the public in today’s first world countries would rally with them. Important

The Babylonian Captivity helps a lot that there was a Muslim religion, it confirms the Israelites existed from the lands of Ancient Israel and Ancient Judah. This was a historical event. Important

Scripture was preserved with oral tradition. With Islam, the companions of Prophet Muhammad give the most oral tradition of Prophet Muhammad. I believe that helps the case Islam is right a lot. The Israelites final religion

has the most oral tradition of a Prophet in it between the Quran and hadiths. Important

The world's largest library is the British library that has over 170 million different writings.

France and Germany will be in serious trouble in the future where their countries do not function. I don't know about the U.K. There will be clash after clash. Important

America's leaders had the most wars in the countries name since WWII, now wants to be known as not being involved with any wars. Important

In the future, you will see religious leaders say those in their religion are Jewish, Christian, or Islamic when the public is not doing what is part of the religion. They will have it that there is no constructive criticism of their religion, this includes the actions of the religion's followers. Important

If Christians false god as man is an intercession to pray to their false god, that would be a big reason why Christianity is false.

Coffee started widely being used in Yemen.

A famous YouTuber, who is Christian, tried saying that the false disciples recorded everything their false god said about their false gospel, but the text got corrupted. That's not how it works. It is kind of embarrassing for the famous YouTuber who is Christian.

What could have happened was that the Arab polytheists could not defend the Kaaba, so Allah sent Prophet Muhammad to have the upcoming caliphates defend the Kaaba. Because Abd al-Muttalib Prophet Muhammad's grandfather defended the Kaaba, Allah blessed Abd al-Muttalib with his grandson Prophet Muhammad. Important

All the money that is being funded by the elites and their pawns for activism is being thrown out. This is something that has never happened throughout history. I don't mean to compare this to the NBA player Antonie Walker where he lost all his money going on trips with his friends and family. It is something to be discussed. Over time, it will show the effects it had on economies that were invested in much less wasting large sums of money.

Iimatheen has been making an effort to talk Muslims out of having sects in Islam. I don't agree with his belief of trying to get rid of sects in Islam. I wouldn't think it would happen anyways where there wouldn't be Sunni or Shia. A Muslim would still say they are Sunni or Shia if Sunni or Shia didn't exist. What could happen is more division if Sunni's or Shia's believe the other sect is trying to get rid of Sunni or Shia by having no sects in Islam.

Getting rid of Sunni and Shia Islam could be a very bad idea. Sects may take many years to get rid of. It doesn't guarantee that the Ummah will prosper. It may put the Ummah in the wrong direction and create more division amongst Muslims. The Muslim countries would be made new because there would be no sects in Islam. The new Muslim countries would take a long time to develop. There would be so much written on this.

Famous people who believe in evolution are now being made fun of by the elites' pawns. Perez Hilton was being made fun of for it by Jesse Peterson on his social media channel. I could not have imagined this.

You, the reader are aware that practically everyone with social media is trying to get famous on social media.

Material has to cycle. Cars being an example that they have to be traded in. If the cars do not cycle, how is the public going to get cars? Cars can be stored up to high mileage, however the public will have to buy new cars since there will not be used cars since the mileage on the used cars is too high. A portion of the public cannot afford the new cars being made; this means more loans will be taken out.

Books meaning history does not decide the majority of the public's political views in 2024. Podcasts, American T.V. news stations, social media influence, and most of all radios decide the majority of the public's views in 2024. These listed are what is prioritized, all four of them are biased. If you ever wonder why the public has become more left, why the public has become more right, the radios are causing this. Most radio stations are either left or right, there are no in-between and the parties are so different in America. Also, the hosts on Fox News and other T.V. stations and radio stations publish books. The books the hosts and radio stations publish are meant for the readers to listen to the news and radio stations more. Important

The Quran doesn't have to mention Jerusalem in Arabia. The Quran mentions the children of Israel several times.

A recent study showed that an upwards of 90% of jobs can teach the skills necessary to work the job at the workplace. This means there is less reason for countries to pay for college.

There is more evidence that the Prophets are Prophets. Prophets such as Adam, Noah, Jacob, Moses, Aaron, Ezekiel, David, Elijah, Jesus, and Muhammad dominate their names. The only Prophet that someone else who is well known through history is Prophet Abraham where Abraham Lincoln is well known for the name Abraham. Important

The elites will have several more pawns that will study the ideology they talk about more and be on social media several days a week. There will be many more Matt Walsh's who will be better at what they do on social media.

The elites and their pawns don't think their first world countries are in trouble of collapsing. The elites are concerned for their countries, the concern they have seems to be at a medium level.

What happened was the zionists were running the Soviet Union and were failing at it. The zionists also kept working with bad people throughout history. What happened was that there was a need for a zionist state. That is more believable than the zionists were persecuted in Europe. The zionists needed countries run by the Christians in Europe and the Muslims in Africa and the Middle East. The same goes for the freemasons. Only through labor from those who lived in their countries they were able to have countries in the first place. The zionists do not know what they are doing. If the Soviet Union failed, the zionist state and its goal of from the Nile to the Euphrates will fail as well. Important

America was designed that two parties would make the country better and the candidate from Democrat or Republican would have the best policies of all the candidates from both parties, that is why they were elected. The publica years from now will be far from the years of politics where the Democratic party and the Republican party had a small divide. Even if the economy were to get back on track in America, the two parties will still be far divided. The question comes up of how you fix a country where the two political parties are so divided. It could be fixed; I doubt it will. Countries are not supposed to be so divided with political parties. It is one thing if political parties are separated, however the two parties are far divided from each other. Important

It is debated to this day in Judaism if Prophet Abraham was the first Jew.

Back in the 90's, if you made the equivalent of six-figures today, you were viewed no different from anyone else. Now, there is an emphasis on making six-figures. There will be more Andrew Tate's that will keep telling their fans "You're broke" at those who listen to them. The Andrew Tate's will show off their wealth more. Important

What the elites and their pawns are trying to do is promote their many new platforms such as "truth social" that Donald Trump to try to clear the internet of videos, book recommendations, and blogs from the past 30 years as much as they can so their platforms can run most of the internet. Add to this how the elites and their pawns want these arguments of liberal and American conservative that go back and forth on Twitter that Elon Musk

bought. The elites and their pawns have started to boost and “de boost” on their platforms such as Twitter what they want, “de boost” meaning someone using their platform who has been “de boosted” has their replies hidden. Important

Each generation will move further away from religion in place of something that is unrecognizable. An example is Mike Rashid King who is a social media influencer that is selling clothing with “god body” written on it. Another example is the rapper Tom MacDonald who put out a song called “god mode”.

Massachusetts has the highest I.Q. in the country at 104.3, that is 9 points higher than the national average. I will challenge that. Why is Massachusetts planned so poorly?

Americans claim the zionists are their only ally in the Middle East that it owes something to the zionists. The saudi government has traded by far the most with America with oil for dollars.

The rivalry between America and Iran will grow where Iran will make its focus with competing with America.

Who thought of the idea that when prices went up, the politicians would raise the minimum wage? I find this funny.

The protestors will keep trying to make the biggest statements in the country they are in. A recent example being the protests on the Golden Gate Bridge to shut the bridge down.

The elites and their pawns want to get famous on social media with shorts on social media, with the liberals and the American conservative having their takes on social media. Whose statement is viewed the biggest will get the most shares on social media. America and the saud’s are in a constant battle of which country will get more influence after 2023.

Four billion people believe in the previous Prophets of Noah, Moses, and Abraham.

If religion was being taken out to any extent of the are the Prophets were living in, the Prophets would nod their heads and would get upset when someone said, “religion is being removed from the area.”

You will see many YouTube channels where they will try to “evolve” wahhabism thinking they will get famous because they have seen Muslims get famous on social media. Many of these social media channels will have a poor understanding of religion. Many wahhabs watching the channels will

take from the social media channels they see that get famous. This will distort religion over time. Important

How can the false gospel be “antisemitic’? If the Jeshu has said in it to go against Jews, Jeshu is of Jewish (Arab) descent. Jeshu elected Christians over those who descend from Sephardic and Mizrahi zionists (who are Arabs) that do not convert to Christianity. The Sephardic and Mizrahi zionists make up 6.8 million zionists today of the 22.6 million listed. The false gospel is not “antisemitic”.

During WWII, the Soviets fought the majority of the war for the allies to win WWII. Stalin asked America to intervene in the war in 1941, America refused. America wanted the Germans and the Soviets to destroy each other. America invaded to assure that the Soviets did not get the land Germany had taken from West Europe. America joined after the Soviets won the Battle of Moscow in 1941 when the soviets began their counterattack on the Germans. For whatever reason, America makes movie after movie on WWII.

America spends the most in defense spending at $831,781,000,000 a year. Do you believe the money is for “defense” when it has been used or not in military actions take in Syria as example in recent years? Important

The saudi, qatari, and kuwaiti people’s wealth is higher than the people of Thamud. The saudi, qatari, and kuwaiti public won’t acknowledge it. The saudi, qatari, and kuwaiti people say that they are “competing with the west.”

One thing people get angry at is when someone takes their hat. That could be a law of life.

Most of the content on the internet is catered toward the younger generations. This is the opposite of when I was growing up where the internet was for ages 21 through 35. The content was mostly for those who were in their late twenties and up.

After the Soviets collapsed in the 90’s, the Russians were humiliated. As a result, Vladmir Putin will not let Russia fail. I can only imagine the amount of offers the elites have tried to get Putin to accept to quit his country.

The richest elites of today have a net worth nowhere near that of historical figures from the past such as Augustus Caesar, Ashoka, Emperor Shenzong, and Mansa Musa who were worth over four trillion dollars in today’s currency. Important

America in 2024 tries to do so many different big ideas. Some politician figured “let’s do all of it.” I am not going to list off the many different big ideas America has. Britian is the same. Important

The left claims that violence caused by firearms is caused by the amount of guns given out citing America having the highest amount of gun violence. This is not the case. It is based on each country’s citizens, not on how many guns are sold. Also, if several citizens in the public own three guns each, does that mean violence with guns increases?

“Football, beer, and above all gambling filled the horizon of their minds. To keep them in control was not difficult.” This was posted on the internet all throughout the 2,000’s. What is happening is that part of the public has become sports and gambling where that is who they are as a person. To say the candidates that are elected are not what the citizens of America want along with the two-party system would be false.

What happened was the Christian centers in America wanted it free and easy so they replicated what the public did thinking more of the public would join them. What ended out happening was many got up and left their Christian centers. Two sentences sum up what has been years of the same Christian centers.

America, Britain, France, Saudi Arabia, Canada, and Germany cannot have a draft. It will show who is trying to avoid their country’s draft and that they are willing to ruin the country they live in. Many of them will start claiming to be mentally ill and arguing they are mentally ill with the public. Important

Because America has much less wealth than in 2008 than in 2024, the 2007-2008 financial crisis looks terrible for the elites. The elites now do not look like they can manage finances. The elites with both political parties assured Americans their country would do better in the near future.

Once countries are replaced by religions as it has already started, the arguments on social media will be so many between Christians, Muslims, ex-muslims, catholics, hindus etc.

Prophet Muhammad may know Christ better than the previous Prophets or Prophet Muhammad knows the same about Christ as the previous Prophets such as Prophet Noah, Abraham, and Moses. This is something we don’t know. Personally, I believe Prophet Muhammad knows the same about Christ as the other Prophets since the Prophets are brothers in religion.

The public has it backwards, they think the Quran took from the false gospel. Prophet Muhammad learned from the true Gospel that his cousin

Waraqah ibn Nawfal taught him. The false gospel took from the true Gospel. This is why there is a small comparison between the false gospel and the Quran. There is no evidence the writers of the false gospel nor the 12 false disciple met Prophet Isa. The Quran states Prophet Isa spoke to the Israelites saying that he was a Muslim in Quran 19:30. Prophet Muhammad also met Prophet Isa when he went to Paradise. Important

If Prophet Muhammad knows the stories of Scripture, he would know Christ better than the writers of the false gospel by default because Prophet Muhammad spoke to Gabriel, Gabriel knows Christ better than the writers of the false gospel. For some reason, this is not discussed in debates today. Important

It has now been shown that Avery, Ridvan Aydemir, David Wood, and Sam Shamounian are trying to make more of the same channels where the channels created by other YouTubers have the same arguments Avery, Ridvan Aydemir, David Wood, and Sam Shamounian try to make against Islam. The three of them are trying to do this to run social media so the more Christian content will somehow go over the Islamic content on social media. It hasn't done much for them.

What the hamas-zionist war has done is made the pawns of the elites concerned where they don't want to comment on it specifically on their social media accounts. That's how bad it looks if they said they supported the zionists during the war. To put this in perspective, the pawns of the elites will talk often about anything political related even if it were an event happening halfway across the world. This is huge. Important

34 percent of Americans cannot locate Ukraine on a world map. Most Americans are invested in American politics.

The new American conservative woman Lilly Gaddis who got famous on social media put out a good short asking why the normal people have to tolerate the nerds making the laws by nerds such as the Anthony Fauci's and the Mark Zuckerberg's. I couldn't agree more with this. Important

Candace Owens asked Piers Morgan on an interview why are media outlets fearful of criticizing the zionist state? I agree with Candace. Important

The elites invade countries, the countries citizens tell them to leave, once the elites countries leave, they say "the bad guys won". That's not how democracy works. Important

If Iran is viewed as "the bad guys" internationally, the sauds, NATO, the zionists, and the Americans will wage war with them. They are waiting to wage war with Iran. That's why the saudi king Mohammad Bin Salman said

in 2018 that the supreme leader of Iran Ali Khamenei is “very much like the new Hitler”. Iran should not have had their hands in every conflict they find worldwide. Important

When America invades a country, they tie Russia or mostly Iran as if Russia or Iran were fighting for the land for some sort of “empire”.

Just a year ago, Iran had protests in their country. Now, their supreme leader Ali Khamenei is supporting the protesters at college campuses on his X account.

Jesus was known as Jesus or Jesus Christ in the 2,000’s. Rarely was he called “lord”, “Jesus of Nazareth”, or “our lord and savior”. He was not called “lord jesus”, christ is king”, or “king of kings”. These are the three names’ Christians call Jesus in 2024.

I find it funny Patrick Bet-David left Iran denouncing his former country and he comes to America criticizing America and Americans left and right. The world laughs at this.

There has been no further evidence in 2024 that the miracles found in the Old Testament we have today, and the Quran did not occur. Important

The Irish fought the British for their own country right after WWI. That would have helped the Central Powers a lot if the Irish War of Independence was happening during WWI.

Elon Musk has still not gone to Mars.

America was the first country to slice bread in 1928 in Missouri.

You will hear more often “shut up” or “you don’t know what you are talking about” on these political podcasts.

To this day, we do not know why Constantine the Great converted to Christianity.

The elites and their pawns are not going to have the share they want on the internet in 20 or so years. No matter how much they promote their social media channels, it won’t do much for them.

The elites and their pawns are going to have to start handing their positions over to the younger generations since they are getting old. There are people lined up for their jobs that were from their families or were friends of their families. However, for the rest who knows if they will fill the roles and how they will decide who does what work for them running countries like America, Britain, Germany, and France. Important

Japan will collapse with its rapidly declining population. This means Shinto is a false religion.

Maryam has a lesser status in Islam than in Christianity. Maryam is lower than the Prophets in religion. Maryam is one of four of the best women in Islam.

There is a wahhab leader called Ustadh Wahaj Tarin from Australia on social media who has been a wahhab speaker for years is now speaking against the zionists plan to create the “greater israel”, he started speaking against “greater israel” since the 2023 hamas-zionist war started. Ustadh spent 51 minutes in an online podcast with the most popular wahhab social media channel called OnePathNetwork which has 1.7 million subscribers. I am not saying Ustadh has not denounced the zionists plan to expel the Palestinians from their land and the zionists plan to enter a war with Lebanon and Syria, and I am explaining this because the wahhabs are taking the time to capitalize on what they think will be the wahhabs running the Ummah through social media influence for their “third” temple. This means the wahhabs will be exporting wahhabism worldwide through social media. Important

The zionists want Second Jerusalem. The zionists will allow the wahhabs to run Second Jerusalem if they are able to take the land from the Palestinians. The wahhabs will export their social media influence worldwide which will corrupt the land of the Arabs which includes the land of Palestine. Important

Over time, we will see what wahhabism truly is and how it will destroy countries with its bad ideas.

I believe the genocide in Gaza is the worst event to ever happen in history with what is happening worldwide with the genocide. There will not be a worse event in the next 60 years worldwide.

The reason as to why you would not want the zionists being a part of a countries political leadership is because they don’t have a direction. The only reason why they are involved in their own zionist country is because they want “greater israel”.

The Romans called the land of Palestine Syria Palaestina. That is not even close to “Philistine”, the name of the land Syria Palaestina was not to mock the Jews.

I believe the main reason why the freemasons, catholics, and the wahhabs want to run religion is because they are concerned their countries will have several revolutions in them and they want to lead the revolutions in their

countries. This is why they have social media channels such as InspiringPhilosophy. Important

California approved interest free loans for houses up to 150k. America is doing it again with giving out interest free loans on material, it is the same as the 2008 financial crisis. Now, America is claiming that it is a “democratic” state giving out the loans. Important

On Wikipedia, one of the five disciples of Jeshu in the Talmud is called Mattai, which is the Aramaic form of the name Matthew. Todah is also one of the five disciples of Jeshu. Todah means Judah, which is the Greek form of Judas, which is Judas Iscariot. Important

The Talmud is in Mishnaic Hebrew which has been an extinct language since the year 200. There is more reason to believe the zionists are wrong about zionism.

The candidate I would not want to be a President is Donald Trump. Everything is for profit with him. I am not saying he is a capitalist; I am saying that he views every field as needing to be for profit, this means he has no business ethics when it comes to business abroad and in America.

Assyrian and Babylonian are in the same family as Arabic and Hebrew. This includes the Akkadian language. This gives the indication that these two languages came from Arabic.

Nicolas Maduro the President of Venezuela used to be a bus driver; you kind of feel bad for the guy.

The United States is sending 40,000 soldiers for the zionist state to fight in 2024. That is escalating an ongoing war. Important

Hezbollah is part of the Parliament in Lebanon. Hezbollah has 15 out of 128 seats in Lebanon.
